Agribusiness

Opportunity Name: Tomato paste preparation equipment

Sector: Agribusiness

Type of Opportunity: buy

Opportunity Number: RGH20030612022

Approval Date: 6/25/2003 12:40:38PM

Description:

A Ghanaian company wishes to urgently purchase the following listed equipment line:

1. Mango Pulper/Creamer single stage pulper with interchangeable screens for heavy pulping of fresh mango fruits. (Note: This will be connected to a tomato processing line to produce Mango Concentrate and Puree). Required Capacity is 5 -10 tons/hour.
2. 80 L Bin – Stainless steel Aisi 304 bin with sloped bottom, to collect pulp and to be fitted with Level regulator for the automatic start up off a service pump.
3. Sanitary volumetric pump manufactured in stainless steel. Suitable for alimentary products, for heads up to 4.5 bars. Positive pump driven by mechanical speed variator adjustable by hand wheel. Speed variator coupled in-line with joint. Everything must be assembled on a stainless steel base. This will pump the mango pulp to the juice strainer/finisher
4. Thermo conditioned mixing tank with a capacity of 1,000 liters. The double wall is suitable to be filled with hot or cold water for heating or cooling operations of the product. The tank is supplied with an agitator driven by a motor-reducer to maintain the product homogenous. (It will be used to mix mango, citrus & pineapple & water)
5. Sanitary volumetric pump manufactured in stainless steel to pump product to De-aerator. Suitable for alimentary products. Positive pump, single screw type with stainless steel screw rotor and extended type alimentary synthetic rubber Stator to reach pressure up to 9 bar. Driven by mechanical speed variator adjustable

by hand wheel. Speed variator coupled in-line with joint. Assembled on a stainless Steel base.

6. De-aerator to match capacity of tank (As per No. 5 above)

7. Filler with a capacity to fill bags with tomato puree, tomato paste and fruit juice concentrate. Range of products in bags. Bags: polythene bags, aluminum or EVOH type, with oxygen barrier from 5 to 20 liters. Caps: the machine should be fitted with a one cap handling system.

8. Tunnel pasteurizer – machine for the pasteurizer and cooling of food products containers, such as bags and tins. Capacity: 2000 liters. The machine is composed by two equal units, which are completely insulated. Separated by a wall double insulated tin plate. Sliding lid, suitable to cover a unit and equipped with macro-safety to loose the steam inlet.

Filling valve for the passage of the steam in case of non-working of the valve, Injectors placed on the bottom of the tank. Automatic control and regulation system for the temperature, composed by: Thermo regulators, sound PT 100, electric for the visualization and Regulation of the temperature. The tank equipped with two extractable baskets, on wheel, frame, stainless steel web, hinged helves. The group is also complete with an electric jib crane mounted on a base plate. And log bolts for the anchorage. The crane is equipped with electric hoist for the handling of the baskets.

9. Electric 10ST- Stainless steel electric control board with doors to allow a complete internal inspection. The unit includes main automatic Switch on/off switches, warning lights, and automatic overload cutout to protect the motors.

10. Filling and seaming equipment for cans. Should be tooled for 73mm diameter cans with Height of 120mm. Also provide change parts for 56mm and 99mm diameter cans with same maximum height of 120mm. Capacity is 6,000 cans per hour.

11. Equipment to stick labels on cans.

12. Shrink Wrapper.

13. Accessories, connections, taps, valve, piping, fittings, joints, etc. in stainless steel, working platform and engineering services. Pre-assembling and testing.

14. Engineering Services and Installation cost.

The company is interested in new or refurbished equipment.

For more information, please contact assist@usqtn.net.

Opportunity Name: Tomato Seeds

Sector: Agribusiness

Type of Opportunity: buy

Opportunity Number: RTN20030603005

Approval Date: 6/17/2003 8:24:33AM

Description:

A Tunisian company seeks to purchase hybrid seeds of industrial tomatoes for use in tomato paste. The seeds must have the following specifications:

- Type: F1

- Strong resistance to diseases

- High productivity

- Manual harvest

- Seeds of interest include: Sun 6200 of Sunseed, Peto1509 Kenz, Brigade of petoseed

For more information, please contact assist@usgtn.net.

Opportunity Name: Label Printing Machine

Sector: Agribusiness

Type of Opportunity: buy

Opportunity Number: RTZ20030514005

Approval Date: 6/20/2003 1:20:47PM

Description:

A Tanzanian firm seeks to buy a modern multicolored label printing machine. The specifications are as follows:

Size: Heavy duty industrial

Capacity: 5,000 - 10,000 labels per hour

Power: International/Continental Europe

Software: Graphic capability.

The power requirement for Tanzania is 230v to 240v.

The company is only interested in new equipment. The interested supplier will be required to provide technical catalogues with specifications and functions. The machines should be multi purpose i.e. ability to print labels of a variety of sizes.

For more information, please contact assist@usgtn.net.

Opportunity Name: Fish Skin and Leather Products

Sector: Agribusiness

Type of Opportunity: sell

Opportunity Number: RTZ20030604013

Approval Date: 6/20/2003 12:53:05PM

Description:

A Tanzanian company seeks to sell premium pure leather and premium fish skin products. The finished leather and skins are from cow, goat and in different colors that range from soft, plain, printed (different prints), aniline, goat napa, upholstery and garment leather. All products are of premium quality and conform to international standards.

The company produces leather shoes in different designs and according to specific needs of the customer. At present, the company has the following designs in stock for immediate shipment: army & police boots, safety industrial boots, men shoes, ladies shoes and sandals (ladies and gents). The company also has a stock of hand bags, shoulder bags, portfolios, traveling bags, jackets, purses, wallets, belts, conference folders and gift items. A variety of sizes are available and the company can design and produce designs according to the clients specifications.

Products can be made in combination of leather and skin, full leather or full skin. The skins are from Nile perch, zebra, or crocodile.

The company products are certified by Tanzania Bureau of Standards (TBS) and they have won ten international awards claiming international recognition.

For more information, please contact assist@usgtn.net.

Opportunity Name: Fruit vegetable juices, sauces, concentrates etc.

Sector: Agribusiness

Type of Opportunity: sell

Opportunity Number: RUZ20030619031

Approval Date: 6/20/2003 1:26:56PM

Description:

A leading firm in Uzbekistan wishes to find buyers for fruit and tomato juices, fruit sauce and apple concentrate, tomato paste, compote, marinades, jams.

For more information, please contact assist@usgtn.net.

Opportunity Name: fresh and processed berries.

Sector: Agribusiness

Type of Opportunity: sell

Opportunity Number: RGH20030619021

Approval Date: 6/25/2003 12:50:11PM

Description:

A Ghanaian company seeks buyers for its sweet berry (miracle berry), a natural protein sweetener. It currently has the capacity to supply 1 ton of fresh sweet berry fruits a year and half a ton of freeze dried berries.

The company is interested in working with brokers, health shops, pharmaceutical and confectionary manufacturers who have various applications of the product such as quoting tablets and as a sweetener in food preparations respectively.

For more information, please contact assist@usgtn.net.

Communications Technology

Opportunity Name: Satellite & Computer Equipment

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RGH20030619027

Approval Date: 6/26/2003 8:57:35AM

Description:

A Ghanaian company wishes to purchase the following equipment:

- VSATs for direct satellite communication
- Internet-enabled mobile devices such as PDAs, etc.
- Computers (desk top and Lap Tops)

The Company plans to establish Wide Area Network facilities to provide mobile Internet services for prospective clients, mostly corporate organizations. The company is also looking to establish a long term supplier relationship with computer and computer peripherals suppliers.

The ideal company(s) to respond to this opportunity is a manufacturer or agent distributor.

For more information, please contact assist@usgtn.net.

Opportunity Name: Welding Powder

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RID20030618004

Approval Date: 6/24/2003 12:17:00PM

Description:

An Indonesian company seeks to become an agent/distributor for welding powder.

For more information, please contact assist@usgtn.net.

Opportunity Name: Integrated Security Solutions

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RKE20030625008

Approval Date: 6/25/2003 9:40:57AM

Description:

A Kenyan company seeks to purchase integrated security solutions from reputable manufacturers and agents. Specifically the company seeks integrated security solutions with the following specifications:

- Information Security Risk Analysis

- Database Privacy Protection
- Firewalls
- Cipher Encryption
- Digital Security
- Intelligent Module Protection
- Electronic Security
- Security Management System
- A/V Access Control Systems
- Video Communication Networks
- Data Recovery and Forensic Solutions
- Data Eraser Solutions
- Digital Storage Hardware and Solutions
- Information Enterprise Portal

For more information, please contact assist@usgtn.net.

Opportunity Name: Solar Cell

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RMX20030623014

Approval Date: 6/26/2003 5:46:00PM

Description:

A Mexican engineering company is interested in buying solar cells with the capacity of saving at least 500 watts of energy.

This company is interested in reselling and adapting the technology as an energy saving solution to a farming facility.

The solar cells should provide energy on levels of 500 watts and include transformers to give an operating voltage of 120 volts in one phase, 220 volts in two and 440 volts in three.

The company wishes to become a representative for these products within the Mexican market.

Any interested parties might reply, but preference will be given to manufacturers rather than distributors.

For more information, please contact assist@usgtn.net.

Opportunity Name: Sales representative for solenoid valves

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RMX20030626011

Approval Date: 6/26/2003 9:04:14PM

Description:

A Mexican company is interested to be a sales representative and distributor in Mexico for solenoid valves applied to control fluids flow.

The solenoid valves should be able regulate the flow of gases, liquids, or loose materials through pipes by opening, closing or obstructing ports or passage ways. The company expects to have a broad catalogue of valves that can work with any kind of fluid or application, and that they can be displayed in 2 ways for general purposes and 3, 4, and 5 ways for hydraulic and pneumatic uses.

For more information, please contact assist@usgtn.net.

Opportunity Name: Computers - hardware and software

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RZM20030618005

Approval Date: 6/19/2003 3:25:59PM

Description:

A Zambian company seeks to purchase the following:

10 desktop computers (new, second hand or refurbished) with the following specifications:

- 246 megabytes ram
- 20 gigabyte hard rive
- Windows XP professional
- Network card 10/100
- Office XP pre-installed

The Company would also like to purchase the following:

- SOFTWARE: MS Office Suite, with Norton Antivirus
- Internet café management software.

The voltage in Zambia is 240v

For more information, please contact assist@usgtn.net.

Opportunity Name: Computers & Networking Equipment

Sector: Communications Technology

Type of Opportunity: buy

Opportunity Number: RUG20030627016

Approval Date: 6/27/2003 9:53:13AM

Description:

A Ugandan company seeks to purchase the following equipment.

- Computers (50)
- Pre-packaged Software (Databases, Desktop Publishing, Drawing and Painting, Education, Entertainment, Finance, Internet, Operating Systems, Presentation Graphics, Project Management, Spreadsheets, Word Processing)
- Computer Peripherals (Computer Disk Drives, Microphones, Modems, Monitors, Mouses, Hard Drives, Printers - Inkjet, Laserjet, Speakers - (100 of each)

For more information, please contact assist@usgtn.net.

Opportunity Name: Offshore Data Processing Services

Sector: Communications Technology

Type of Opportunity: sell

Opportunity Number: RGH20030619018

Approval Date: 6/27/2003 8:03:49AM

Description:

A Ghanaian IT company is offering data entry and validation, and data conversion services. Its services are targeted at banks, retail organizations, insurance companies, mailing service firms, direct marketing and database marketing firms, newspapers, large corporate enterprises or data entry service companies wanting to outsource a portion or all of their data entry requirement .

The company has acquired a new office complex to be used for Off-Shore Data Processing Services. The focus of this new division of the company will be on Low-level, high-keyboarding tasks. The new unit is being equipped with the following to ensure high speed data entry and validation; high quality (accuracy levels of 99.995% minimum); and low cost to partner companies:

- 100 Brand new Pentium IV PCS
- 17" High resolution Flat Screens
- 100 Mbps LAN with Fiber-Optic backbone between buildings
- High Speed Internet Access (Downlink=1,024 kbps, Uplink 256 kbps)
- Onsite Training Room for Continuous Skills and Motivations Training for all Staff
- Highly committed and dedicated staff of up to 400 typists with minimum speeds of 70 WPM working in 4 to 6 shift grouping patterns.

For more information, please contact assist@usgtn.net.

Opportunity Name: Workflow Software
Sector: Communications Technology
Type of Opportunity: sell
Opportunity Number: RBG20030619017
Approval Date: 6/19/2003 7:10:13AM

Description:

A Bulgarian software company is looking for buyers of its product - a system for visual modeling and automation of business procedures in a company. The system helps companies to automate all business procedures, impose better control over the processes and execute real-time monitoring of their progress. The design of processes and procedures with different complexity is done by the product using a Graphical User Interface (GUI). The product is integrated with a special web interface for displaying the users' tasks online.

For more information, please contact assist@usgtn.net.

Opportunity Name: Software Solutions
Sector: Communications Technology
Type of Opportunity: sell
Opportunity Number: RBD20030617004
Approval Date: 6/24/2003 10:35:13AM

Description:

A Bangladeshi Software Development Firm seeks buyers for their following products:

- ERP Solution for Garment Industry
- A Rational Human Resource Management Solution
- An Integrated Financial Accounting Management Solution
- A Comprehensive Inventory Solution
- A Market Representative Management Solution
- Billing Solution for ISP Service Provider
- Point of Sales & Inventory Management Solution
- A Smart Fixed Assets Management Solution

These software products are ready made. But these can be customized according to the needs of the buyer.

For more information, please contact assist@usgtn.net.

Construction

Opportunity Name: Aluminum Ingots and Billets
Sector: Construction
Type of Opportunity: buy
Opportunity Number: RNG20030612016
Approval Date: 6/20/2003 9:42:23AM

Description:

A Nigerian company manufacturing aluminum profiles for the building and construction industry seeks to buy aluminum ingots, billets and scraps for its extrusion plant. The capacity of the plant is 500 mt per annum. Specifications for the billets are as follows:

Alloy 6063 Homogenized Billet
Aluminum (Al) 98.8 - 99%
Silicon (Si) 0.4 - 0.5%
Magnesium (Mg) 0.4 - 0.5%
Iron (Fe) 0.1 - 0.2%
copper (Cu) (.001)
magnese (Mn) .45 - 0.5%
titanium (Ti) 0.005-.005
Zinc (Zn) 0.00%
Specs for Ingots are also available

For more information, please contact assist@usgtn.net.

Opportunity Name: Nuts, Bolts and Screws

Sector: Construction

Type of Opportunity: buy

Opportunity Number: RKE20030627010

Approval Date: 6/27/2003 8:46:21AM

Description:

A Kenyan company seeks to purchase a variety of nuts, bolts and screws for use in the furniture, construction and manufacturing industries. The bolts and screws are required in a variety of sizes including: M5 X 15mm, M5 X 14mm, M5 X 13mm, M5 X 11.5mm, M5 X 10mm, M5 X 9.5mm, 3/8" X 12mm, 1/4" X 10mm, 3/16" X 8mm, 5/16" X 10mm.

For more information, please contact assist@usgtn.net.

Opportunity Name: Steel

Sector: Construction

Type of Opportunity: buy

Opportunity Number: RID20030612002

Approval Date: 6/20/2003 8:04:27AM

Description:

An Indonesian company seeks to purchase the following items:

- HEAVY MELTING STEEL SCRAPS
- STEEL BILLETS
- FERRO SILICON
- CONCAST STEEL SLAB
- PIG IRON
- BEAM BLANKS
- SILICON MANGANESE
- GRAPHITE ELECTRODES

For more information, please contact assist@usgtn.net.

Opportunity Name: Polypropylene containers with lids

Sector: Construction

Type of Opportunity: buy

Opportunity Number: RTN20030603007

Approval Date: 6/17/2003 8:14:22AM

Description:

A Tunisian company seeks to purchase lidded polypropylene containers.

Quantity: a 20" container: 750 pieces

Container Dimensions in millimeters: 60 x 40 x 40

For more information, please contact assist@usgtn.net.

Opportunity Name: Steel

Sector: Construction

Type of Opportunity: sell

Opportunity Number: RID20030612004

Approval Date: 6/24/2003 12:27:59PM

Description:

An Indonesian company seeks to sell their steel products. The company manufactures hot rolled steel and is currently offering the following products:

- 1) Coil
- 2) High Strength and High Strength Low Alloy Plate

- 3) Mild Steel Plate
- 4) Pressure Vessel Plate
- 5) Ship Building Plate
- 6) Angle (HR), Cell Form, Channel (UNP), H-Beam (HR), Honey Comb, King Cross, Queen Cross, T-Beam, Welded Beam, Wide Flange Beam (IWF).

Their steel conforms to JIS and other International Standards including ASTM, BS, DIN. They use the latest software for analysis and design of all kinds of structures such as towers, high-rise buildings, bridges, warehouses, and other industrial structures. They would like to expand their market and are seeking new buyers.

For more information, please contact assist@usgtn.net.

Opportunity Name: Electric Lighting Lanterns

Sector: Construction

Type of Opportunity: sell

Opportunity Number: RBG20030609003

Approval Date: 6/19/2003 5:50:25AM

Description:

A Bulgarian producer of various types of plastic, bakelite and rubber parts and goods offers wide range of lanterns intended for lightning of houses, halls, restaurants, gardens and parks. The company also manufactures plastic articles (hoses, fittings, coverings, crates, household, toilet, etc), rubber gaskets and parts.

For more information, please contact assist@usgtn.net.

Consumer Goods

Opportunity Name: Peanuts - not roasted

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RBA20030618016

Approval Date: 6/18/2003 9:35:35AM

Description:

A food processing company in Bosnia and Herzegovina seeks to purchase peanuts - nuts, not roasted, caliber 40/50, 50/60 and 60/70, packaging 25/1 or 50/1 - 12 tons per month.

For more information, please contact assist@usgtn.net.

Opportunity Name: Cables/Conductors for Thermocouples

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RMX20030626010

Approval Date: 6/26/2003 8:51:33PM

Description:

A Mexican company is looking for a new supplier of cables/conductors specially designed for thermocouples.

This type of cable is required to make the connection between the thermocouple and any type of measuring instrument. Extension cables must use the same alloys as the thermocouple. Compensating cable uses different alloys which have a matched e.m.f. output over the appropriate temperature range.

Cable selections should be made after consideration of the temperature, moisture, chemical and abrasive conditions to which it will be subjected in use.

Those cables must comply with ITC specifications.

The company has an extensive list of specifications of the desired application and will be submitted upon request to potential suppliers.

For more information, please contact assist@usgtn.net.

Opportunity Name: Domestic electrical appliances and toys

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RMX20030623011

Approval Date: 6/26/2003 5:37:19PM

Description:

A Mexican company is interested in importing household electrical appliances that would be used for promotional purposes and "give aways"; as well as for their introduction to the Mexican consumer market.

The required appliances must have proof of customer satisfaction and must have some degree of success in other markets. The products will be commercialized through retail and massive distribution.

The company is requesting that the products have never been released in Mexican market.

The company is interested in becoming a distributor for these products within the Mexican market from directly from the manufacturers rather than from agents/distributors.

The required electrical appliances could include toys, home devices (such as blenders, mixers, etc.) recreational devices, games, etc.

The interested company shall be willing to introduce its products to Mexico and consider this country as a final market.

For more information, please contact assist@usgtn.net.

Opportunity Name: High and Low Density Polyethylene

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RYU20030613003

Approval Date: 6/16/2003 11:57:46AM

Description:

A manufacturing company based in Serbia seeks to buy High and Low Density Polyethylene (HDPE and LDPE), for foil production, packing in bags 25/1.

For more information, please contact assist@usgtn.net.

Opportunity Name: Domestic Solar Ovens

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RZM20030620012

Approval Date: 6/20/2003 12:05:56PM

Description:

A Zambian company seeks to purchase solar ovens through a franchise agreement with suppliers, acting as an agent/distributor or as a direct purchase.

The company seeks to purchase domestic solar ovens with the following specifications:

Solar ovens designed to meet up to 80% the cooking needs of a typical family, entirely with the power of the sun. Cooking temperatures of up to 360° F / 182° C

Weight of no more than 10kg

Either fully assembled or (in bulk quantities) unassembled.

The company is interested in setting up an assembly plant using components to be provided by the supplier.

For more information, please contact assist@usgtn.net.

Opportunity Name: Corn and Soya Beans

Sector: Consumer Goods

Type of Opportunity: buy

Opportunity Number: RZM20030617006

Approval Date: 6/19/2003 11:01:01AM

Description:

A Zambian company seeks suppliers of the following products:

-Corn (Maize) - Grade A and GMO free. Quantities for maize will depend on the output of the local harvest, but packaging in 50kg polypropylene bags is preferable.

-Soya beans- Grade A and GMO free. Soya beans would be preferably packaged in 25kg polypropylene bags at initial order of 20,000 metric tons.

For more information, please contact assist@usgtn.net.

Opportunity Name: Natural cosmetic products: creams, masks, lotions, gels, powders

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RRO20030618011

Approval Date: 6/19/2003 10:23:51AM

Description:

A Romanian manufacturer wishes to find buyers for its high-quality skin care and hair care products based on natural herbal extracts for women, men and children.

For more information, please contact assist@usgtn.net.

Opportunity Name: Solar & Electronic Products

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RUG20030627012

Approval Date: 6/27/2003 10:02:04AM

Description:

A Ugandan Company seeks buyers for the following solar and electronic products.

Electrical – electronic products

POWER CONDITIONING PRODUCTS

- Stabilizers (1Kv - above 10Kv)
- Power back up systems(0.5Kv - above 10Kv)
- Step down transformers (0.5Va - to 5 Kv)

SOLAR PRODUCTS

- Solar panels (10Watts - more than 150Watts)
- Deep cycle batteries (maintenance free batteries 2V -12V DC) with current of 0.2A to more than 3,000A)
- Charge controllers 5Amps to 60 Amps)
- Autonomous power supply system 3Kv to more than 30Kv single and 3 phase
- Solar thermo-hot water system 100ltrs -1000ltrs
- Sun ovens

Telecommunication solutions

DC POWER SUPPLIES

- Nickel Cadmium Batteries
- Prismatic and portable

- Lead Acid Batteries

OPZS, PzS, Sli

- Li-ion Batteries
- Silver-Zinc Primary & secondary Batteries
- Zn- C primary cell
- Power supply systems: Battery chargers, Switch Mode Rectifiers, Ups, Power supplies, Inverters, Converters.
- Autonomous Power Supply Systems:
Hybrid Independent Systems

For more information, please contact assist@usgtn.net.

Opportunity Name: Furniture and Traditional Crafts

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RID20030623019

Approval Date: 6/25/2003 12:57:54PM

Description:

An Indonesian company seeks to sell their Indonesian traditional crafts and furniture. Most of their products are made of Rattan and Wood. Below is the list of items, the company would like to sell:

1. Furniture
2. Crafts and Gifts made of Rattan.
3. Traditional weapons: Shields for combat, blowpipe, and bow
4. Traditional musical instruments
5. Wooden Masks
6. Wooden Sculptures
7. Wooden Boxes

For more information, please contact assist@usgtn.net.

Opportunity Name: African Accessories and Gift Items

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RKE20030626004

Approval Date: 6/26/2003 8:30:42AM

Description:

A Kenyan company seeks buyers for its line of authentic African accessories and gift items. The company offers the following products:

- Maasai beaded belts
- Maasai cowry shell belt
- Wooden bangles
- Hand woven ladies jackets
- Mud cloth ladies blazer
- Ladies handbags
- Sisal shopping baskets
- Hand woven table mats
- Maasai beaded leather table mats
- Napkin holders
- Mudcloth wall hangings
- Maasai beaded flower vases
- Wooden salad spoons
- Wooden soup spoons.

Minimum order quantities are 200 pieces per item.

For more information, please contact assist@usgtn.net.

Opportunity Name: Waffles and Wafers

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RBA20030625006

Approval Date: 6/25/2003 4:55:46AM

Description:

A food processing company in Bosnia and Herzegovina seeks to sell wafer products – 200 g, 400 tons per year.

For more information, please contact assist@usgtn.net.

Opportunity Name: Leather Goods

Sector: Consumer Goods

Type of Opportunity: sell

Opportunity Number: RBD20030625002

Approval Date: 6/26/2003 10:57:14AM

Description:

A Bangladeshi company seeks to sell the following products:

- All types of Ladies and Gents Bags,
- Fashion Bags
- Evening Bags
- Travel Bags
- Briefcases
- Portfolios
- Organizing Bags
- Purses and Wallets (travel purse, coin purse)
- Passport Covers
- Small Leather Goods (Key Case, Key holders, Key ring)
- Leather Gift Items (Pencil Case, Stationery etc)

All products can be handled as 8,000 to 10,000 pieces upon order. The company is now exporting these items to Germany, the Netherlands, Australia and Japan. They are now the sole supplier of a famous German Brand.

For more information, please contact assist@usgtn.net.

Environment & Energy

Opportunity Name: Tender Opportunity: SUPERVISION OF CONSTRUCTION OF 3 WASTEWATER TREATMENT PLANTS

Sector: Environment & Energy Technology

Type of Opportunity: buy

Opportunity Number: RBG20030616009

Approval Date: 6/16/2003 11:26:11AM

Description:

The Ministry of Regional Development and Public Works of the Republic of Bulgaria seeks to receive applications for a service contract for the supervision of the construction of three urban waste water treatment plants in South Central Bulgaria.

For more information, please contact assist@usgtn.net.

Opportunity Name: Distribution of electromagnetic flow meters and pumps

Sector: Environment & Energy Technology

Type of Opportunity: buy

Opportunity Number: RHR20030604009

Approval Date: 6/16/2003 12:34:18PM

Description:

A Croatian company providing design, consulting and engineering services for various water systems in Croatia, Slovenia and Italy, is interested in becoming a distributor for US-made electromagnetic flow meters and pumps.

For more information, please contact assist@usgtn.net.

Opportunity Name: Filters for pre-treatment of potable water

Sector: Environment & Energy Technology

Type of Opportunity: buy

Opportunity Number: RHR20030618018

Approval Date: 6/18/2003 2:00:44PM

Description:

A successful Croatian distributor of the ION scale buster systems for water conditioning would like to become a regional distributor for U.S.-made high-quality mechanical filters for pre-treatment of potable water for residential and commercial applications.

For more information, please contact assist@usgtn.net.

Opportunity Name: Product Control Systems

Sector: Environment & Energy Technology

Type of Opportunity: buy

Opportunity Number: RKE20030627011

Opportunity Name: 10 Recreational Vehicles (RVs).

Sector: Other

Type of Opportunity: buy

Opportunity Number: RMX20030624021

Approval Date: 6/26/2003 3:16:03PM

Description:

A Mexican company is looking for a US manufacturer or distributor of Recreational Vehicles (RV) in order to import to Mexico 10 of them.

The company is interested in buying or leasing those vehicles.

Recreation vehicles, or RVs, comprise a whole family of vehicles that combine transportation and temporary living quarters for recreation, camping and travel. Some provide a simple place for sleeping and eating, while others are virtually luxury lodges on wheels.

Conveniences range from the basics -- like running water, cooking and bathroom facilities, and a power source (either electricity or liquid propane) -- to added comforts such as air conditioning, entertainment systems and slide out rooms.

It is important to note that the company is looking for Motorized RV's.

Financing or credit offered by the manufacturer available is preferred.
